

GASOLINE®

Cleans injectors, throttle bodies and intake valves.

When to use:

- ▶ Your engine performance is suffering.
- ▶ Your fuel mileage is declining.
- ▶ To keep your engine & fuel system clean.

What it does:

- ▶ Cleans injectors & throttle bodies.
- ▶ Removes & prevents intake valve deposits.

How much to add:

For proper mixing, add entire bottle to tank before adding fuel. For best results do not refill tank until nearly empty. Container Treats: 80L / 18 imp. gal. / 22 US gal.

* Certified compliant for use in Gasoline Engines.

* EPA Top Tier Gasoline Additive.

* EPA Registered.

Meets & exceeds industry standards:

- IVD (ASTM D5500-94)
- PFI (ASTM D5598-94)
- Water Tolerance (ASTM D1094)
